DEMAND LEGISLATION

**Candidates for Public
Office to Be Questioned
and Pledged**

**Bill of Grievances Presented to
Speaker Cannon by Wage
Workers.**

Washington, D. C., March 23.—"We now call upon the workers of our common country to stand faithfully by our friends, oppose and defeat our enemies, whether they be candidates for president, for Congress or other office, whether executive, legislative or judicial. Each candidate should be questioned and pledged as to his attitude upon all subjects of importance to toilers. Let labor not falter for one instant; the most grave and momentous crisis ever faced by wage workers in our country is now upon us."

This is an excerpt from an address to organized labor and farmers' associations issued by the labor leaders who presented a bill of grievances to Speaker Cannon and Vice President Fairbanks at the capitol a couple of days ago. In it they point out the legislation they desire to have enacted at this session of Congress, and the laws they specify are those mentioned in that memorial. The address is an appeal to labor to take an active part in politics this year, particularly in the contest for presidential and congressional nominations. The address does not specify the candidates for president or for Congress whom organized labor is called upon to oppose.

But it is worthy of remark in this connection that neither President Roosevelt nor Speaker Cannon, nor any of the Republican candidates, so far as known, favor all of labor's demands. There is strong opposition particularly to amending the Sherman anti-trust law so as to relieve labor unions from the conspiracy in restraint of trade clause under which boycotts may be maintained. There is also a disinclination on the part of the Republican leaders to go as far in curtailing the Federal court's power in issuing injunctions in labor disputes as the trades unionists desire.

"While the Supreme court and other institutions may be able to temporarily retard and seriously embarrass the growth and action of our movement, we boldly assert that no power on earth can destroy, successfully outlaw or disrupt the trade union movement," continued the address.

The address states that a large part of the discussions of the conference was devoted to the consideration of the Supreme court's action in applying the Sherman anti-trust law to labor.

The further statement is made that it was the unanimous feeling of the conference that some steps should be taken to impress upon Congress the necessity for prompt action toward amending the Sherman anti-trust law so that it shall be inapplicable to "organizations or associations not for profit and without capital stock, nor to members of such organizations."

The conference pledged itself to use its influence toward securing the enactment of a bill to regulate and limit the issuance of an injunction; also of a new employers' liability bill. The address, continuing, says that it is the belief that Congress appreciates the gravity of the situation, and it is declared that "labor is not in a mood to be trifled with."

HUNDREDS DROWN IN EARLY MORNING COLLISION TODAY

Shang-Hai, March 23.—Two hundred and seventy-five lives are reported lost in a collision in the fog early today on the Japanese coast. The Matsui Maru and Hideyoshi Maru, both big Japanese steamships, were sunk. It is known that the Matsui Maru drowned, including the captain, 43 sailors and most of the 244 passengers which the vessel carried.

The Hideyoshi rammed the Matsui a smaller ship of 8,000 tons, in the darkness, and although she stood by

for hours and was aided after a short delay by another vessel summoned to the spot by signals for aid, few rescues were made.

There was a terrific panic among the Matsui's passengers, who fought with one another for life as the vessel settled under them. The crew behaved with great courage but could do little either to check the panic or save the maddened people. The ship sank in a few moments after she was rammed.

DEMANDS THAT SUIT BE BROUGHT AGAINST TREASURER M'KINNON

Columbus, March 23.—Representative Stockwell, of Cleveland, acting as a taxpayer and citizen, Monday made a demand on Attorney General Ellis to bring suit against Treasurer McKinnon to recover large sums of interest of the people's money. Stock-

well in his petition holds that every contract by which McKinnon deposited public funds in banks in which the treasurer holds personal financial interest is void. Stockwell charges that McKinnon could not legally lend the state's money to himself as a beneficiary of the loan.

CONGRESSMAN HEPBURN INTRODUCES BILL TO AMEND ANTI-TRUST LAW

Washington, March 23.—Congressman Hepburn, chairman of the House committee on Interstate and foreign commerce, introduced in the House today the long heralded administration bill to amend the Sherman anti-trust law. The measure states that it is not intended to interfere with the rights of laborers to combine or strike, or to restrict employers in discharging labor or combining to secure labor at satisfactory terms. The

bill provides for immunity for corporations which register under conditions to be promulgated by the president. It also provides for combinations other than with common carriers providing such combination is approved by the commissioner of corporations.

The bill also gives railroads the right to form certain pools and mergers and to acquire stock in subsidiary lines.

lators of the rules. Lamb says that the man was suspended so that his feet were scarcely touching the floor, and had been there since last Thursday. When he began to question the inmate the guard admonished against talking to him.

Warden Gould denies emphatically that the prisoner's feet were just touching the floor, as this is not the method, and he will appear before the committee and tell why the man was punished. He wants it distinctly understood also that prisoners are not kept standing day and night, as report has it, but only during working hours, or until he is willing to return to his task. It is believed that the Legislative probe at the Pen will be an important feature before the session adjourns.

PROTESTED AGAINST POLITICAL ACTIVITY

LETTERS INTRODUCED BY DEFENSE IN THE MECK INVESTIGATION.

Corson Thinks Law Forbidding Examiners to Lecture at Institutes Would be Unfair.

Columbus, March 23.—Letters from J. W. Zeller, Republican candidate for state school commissioner, to President Thompson of Ohio State University, protesting against the political activity of Dean Boyd of that institution were offered in evidence by the defense at the Meck probe today.

O. T. Corson, accused by the Meck people of being the school boss, testified that there are no factions in Ohio schools and that he has asked no one to follow him.

"I have no positive recollection," he said, "whether I sent out circulars against Bonebrake. I may have sent out two or three, but I do not know who prepared them. I burned many of them." Corson said he recommended Van Cleave for superintendent of the Toledo schools and also made recommendations, unsuccessfully, for superintendents at Greenville and Sandusky. Mr. Corson believed that a general law forbidding examiners to lecture at county institutes would be unfair.

The Meck probe closed after a long morning session. The charges of improper advances made against S. P. Humphrey of Ironton, former state

school examiner, by Mrs. Dollinger, were sweepingly contradicted by Miss Irene May Kilmer of Dunkirk, and superintendent of schools at Patterson. Prof. Humphrey also denied the charges.

EX-GOV. CAMPBELL FOR U. S. SENATOR

Athens and Pickaway are Two More Counties that Endorsed His Candidacy Saturday.

Athens, March 23.—Athens county has fallen into line for ex-Governor Campbell as the Democratic candidate for United States senator. The coming state convention will endorse a candidate for senator, who will be voted for by the Democratic members of the next legislature. Several counties have already endorsed Governor Campbell and there is such a feeling of unanimity among the Democrats of the state in his behalf that the nomination of the Democratic ex-governor seems a foregone conclusion. The Athens county endorsement Saturday, was of the most enthusiastic and binding character.

MME. GOULD COMES FOR FOUR MONTH'S VISIT

New York, March 23.—Mme. Anna Gould, formerly the Countess de Castellane, has returned to this country after an absence of five years, bringing her three sons, Boni, aged 10; George, 8, and Jay, 5.

"Mme. Gould has come here to stay perhaps four months," says Mr. Morse, "and return a visit made to her by her sister, Miss Helen Gould. That is all there is to her visit, and

she also says he is glad to be again in America and meet her friends."

Although Mme. Gould went on board the Adriatic at Cherbourg as "Mrs. Miller," the fact that she and her children were of the ship's company was known within a short time by the passengers. Mme. Gould did not attempt to become acquainted with others on the ship, the party having tables in a quiet corner of the great dining saloon.

The boys, who throughout the rough trip, proved good sailors, were often seen with their tutor, and played about the decks whenever opportunity offered. To one passenger Boni, the eldest, confided that when he "grew up" he would be a sailor in the French navy.

Mrs. Humphrey Ward was also a passenger with her husband, who said they would spend several months visiting friends in this country.

It is charged that the motorman was flirting with girls at the Sebring pottery and didn't see the engine. Mrs. Hannah Hemmingsway, wife of a farmer, will probably die.

Imperial, Cal., March 23.—Three distinct earthquake shocks were felt through Imperial Valley yesterday morning. No damage is reported from the various towns other than the breaking of a few dishes at Brawley and El Centro.

The first shock occurred three minutes before 6 o'clock and was the most severe of the three. The second followed in five minutes and the third in 15 minutes, each quake lessening in severity. At Brawley the people rushed out of their homes.

The contract for the erection of the fire department station at the Alaska-Yukon-Pacific exposition has been let. It will cost \$9,320.

HORRIBLE ACCIDENT AT BOTTLE PLANT RESULTS FATALLY

**Painter Hurlled Through Space to Floor
Below Sustains Terrible Injuries---
Plank Turned With Him**

**Body Lodges Between Two Tanks of Molten Metal
And Four Men Were Required
To Release it.**

Charles H. Krebs, 35, a painter residing at 39 German street, South Newark, died at his home Monday morning at 1:40 as a result of injuries sustained Sunday by a 50-foot fall from the top of the new shop No. 9, at the American Bottle company's plant.

Krebs, who was a son of Henry Krebs, a well known carpenter of the city, has been in the employ of Contractor Frank Place for the past 23 years. Sunday morning he was engaged in painting the inside of the roof of No. 9, which is one of the additional buildings of the company's extensive plant. A plank on which he was standing turned with him, and the unfortunate man fell to the floor, 50 feet below, alighting in such a manner that his body was pinned between two tanks of molten metal until the combined efforts of four workmen near him, could release him.

It was found that the man's right shoulder was broken in three places, the right ankle broken, his head terribly mashed, and gashes cut in the back of the neck. The man's chest was caved in and other internal injuries caused his condition to be pronounced fatal from the start. His flesh was terribly burned from contact with the tanks of hot metal.

Bowers & McCament's ambulance took the injured man to the city hospital where Dr. Knauss attended him. The dead man leaves a wife and four children, making the case an extremely sad one.

Washington, March 23.—Senator Tillman will probably be unable to return to Washington during the remainder of the present session of Congress. A telegram was received from his home in South Carolina here today saying, "I am slowly improving, but it is impossible to even guess when I will be able to return to Washington." The Senator is suffering from nervous breakdown and partial paralysis.

The case will be appealed to the Supreme court of the United States.

SEVENTH

**Senator to Die Since
Adjournment of
Last Congress**

SERVED THREE MONTHS

**Senator Wm. J. Bryan
Passes Away After Five
Weeks' Illness**

**Was Youngest Member of Senate
Having Succeeded the Late
Senator Mallory.**

Washington, March 23.—William James Bryan, United States senator from Florida, died in the Providence hospital soon after 8 o'clock Sunday morning.

Senator Bryan had been seriously ill for five weeks from typhoid fever, and on several occasions his life has been despaired of, but each time he rallied in a manner which won the admiration of all who knew him and led his relatives to hope that he would recover.

Senator Bryan was only 31 years of age, and with the exception of Henry Clay, was the youngest man ever sent to the senate. He was appointed on December 26, last year by Governor Broward of Florida to fill the vacancy caused by the death of Senator Mallory during the Christmas holidays. He is the seventh senator to pass away since the adjournment of the Fifty-ninth congress and is the fifth to die since congress convened on December 3.

Senator Bryan's body will be taken to his late home in Jacksonville early tomorrow, accompanied by a committee of senators and his widow. His death will be announced formally as soon as the senate convenes by Senator Clay of Georgia, and an adjournment will be taken at once.

Particular attention is attracted to the death of Senator Bryan in view of the fact that, as the youngest senator, he died within a few days after the death of Senator William Pinckney Whyte of Maryland, the oldest member of the Senate.

Senator Bryan is the second senator from Florida who has died so far this session. He is likewise the second occupant of desk No. 89, and the second man in the last row on the Democratic side to die since congress convened.

He is the fourth Democrat who has passed away since the opening of the Sixtieth congress and the sixth since the Fifty-ninth congress adjourned a year ago.

While many of the aged senators on the Republican side who have served for many years are very feeble and scarcely able to attend to their duties, all have been spared thus far and younger men like Senator Bryan, Senator Latimer and Senator Mallory have been stricken.

When Senator Bryan assumed his seat, vacated by Senator Mallory's death, he was asked by one of his colleagues how long he intended to remain in the senate.

While he had only been in the historic chamber a few hours, he appears to have caught the spirit which moves every senator to hope that he will never be compelled to leave his work there, as he replied: "I hope to remain, sir, until I die."

Senator Bryan was a native of Florida. He was a graduate of Emory college at Oxford, Ga., and of Washington and Lee university. He practiced law in Jacksonville, and in 1902 was elected solicitor of Duval county. His fearless prosecution of evil-doers won for him the confidence of all factions in his state, and it was on this record that Governor Broward appointed him, although Representative Lamar was a candidate for the place and was arranging to enter a primary contest against him for election next fall.

Although a talented lawyer and orator, he made no attempt to display his ability in the senate during his brief career.

Plate Rail & Picture Rail

You must always remember that when a plate rail is used the brace-a-brac on it may furnish a great deal of color and that a suitable background must be had. The wainscoting or dado should be the same color as the top border or frieze.

The picture molding may harmonize with the ceiling and very often a white picture molding is better than one matching the woodwork in the room.

One thing to put out of your mind is the association of certain colors with certain woods. Many people think that green is the only thing to use with mahogany. And if you speak of oak they think of blue. There are tints in these woods that very frequently demand almost the opposite colors. A banker's office and a lady's reception room may both be mahogany trimmed and yet should be treated in entirely different colors.

Did you ever think of advancing and receding colors?

Sombre or heavy colors seem to come at you while the light tones give effect of distance and are receding, and it should be used in small or narrow rooms.

Tell us about your room and we will show you just what you need to produce the effects you are seeking.

Yours for correct wall covering.

No doubt the young boys who are shooting recklessly about the village are ignorant of the fact that there is a law that prohibits the firing off of firearms in the village, and no doubt they forget that the birds that they are killing are just as essential in their sphere in the animal kingdom, as the boys are in theirs. This should stop and stop right away. Boys should neither shoot at nor kill these birds. If the parent cannot keep track of these urchins, there is always another recourse. Let those whom this hits, desist. Persons do not have to "duck" their heads in this land of the free to keep out of the reach of the shot of hard hearted or thoughtless boys. The chirp and twitter of the song bird is sweeter than the noise of bad boys.

On Friday afternoon in the physics lecture room of Science Hall was held the regular meeting of the Language Association. It was in charge of Prof. Johnson and the subject was "Aegrippina, the granddaughter of Augustus and the wife of Germanicus." After the reading of the paper a display showing the busts and statues of members of the royal family, was given by means of the lantern. The slides were explained by Prof. Johnson as they were thrown on the screen.

ENJOYABLE BANQUET

TENDERED MEMBERS OF THE ORDER AND THEIR LADIES BY THE U. C. T.

Officers Publicly Installed and Number of Speeches Made for Good of the Order.

Fully a hundred members of the U. C. T., accompanied by their ladies, and visitors from Detroit, Grand Rapids, Wheeling, Columbus, Zanesville and Granville, were in attendance at a sumptuous banquet given by the local council, No. 274, and witnessed the public installation of officers elected by the local lodge. The affair took place Saturday night at the K. of P. Hall, Ankele block.

The following officers were elected: Gundlach; Conductor H. Black, Page, stilled with impressive ceremonies, in the evening: Past Senior Counsellor, H. W. Deming; Senior Counsellor, T. M. Rugg; Junior Counsellor, D. H. Alspach; Secretary and Treasurer, Herman Gundlach; Conductor H. Black, Page, H. Rossel; Sentinel, Charles Fuller; Executive committee, M. P. Ashbrook (2 years); C. E. Cochran (2 years); F. L. Beggs (1 year); Representative to the Grand Council, to meet in Cleveland in May, M. P. Ashbrook; Alternate, F. L. Beggs.

The banquet menu was delightful, being prepared by Mrs. Gray and consisted of the following:

Veal Loaf
Mushroom Sauce
Creamed Potatoes Peas
Celery Salad
Ice Cream Cake
Coffee Cigars

Senior Counsellor H. W. Deming, of Granville, presided as toastmaster, and the following speakers were introduced: Supreme Treasurer of the United States, R. N. Hull, of Columbus; Grand Secretary of the State, F. Somerville; Grand Page of the

State, J. M. Moore of Zanesville; C. L. H. Long; W. H. Miller of Dubois Council, Pennsylvania, and M. P. Ashbrook of Granville. Mr. John Hopkins, a member of Cadillac Council, Detroit, also gave a short talk in which he expressed his heartfelt thanks for the kindness shown him by the local council while he was suffering from an accident.

As an example of the way the U. C. T. looks after a member who meets with an accident, Mr. Hopkins was injured some days ago in a runaway that occurred here. The accident was witnessed by a member of the order, who immediately called assistance and took charge of the injured man, who was found to be badly bruised. He was given medical assistance here and was accompanied to Columbus by members of the order, where he was cared for at the Northern hotel until he could be placed comfortably on board the Detroit sleeper for his home. He was a stranger to all the men who assisted in caring for him.

The speakers lauded the efforts of the local order in building up a good substantial council here and each talk was intended to encourage the members in their work and duties to their local council and fellow members of the U. C. T.

Following the banquet, Miss Mable Glenn presided at the piano throughout the evening.

The local council, although comparatively young, has been thriving and productive of good results. The members are all active and energetic in behalf of their order and are rapidly winning friends for the organization which means so much to the member who finds himself friendless in a strange town, possibly the victim of illness or accident. The local members are all encouraged with the outlook for the coming year and the local council will doubtless make an enviable showing in this time.

WHY EASTER COMES ON APRIL 19

Many persons think because we have a late Easter this year, we must have a late spring. As a matter of fact, the coming of Easter has nothing to do with the weather.

Easter is celebrated on the first Sunday after the first full moon that happens on, or after the 21st of March. Therefore Easter cannot happen earlier than March 22, nor later than April 25.

If the full moon should happen on Saturday, March 21, the next day or March 22, would be Easter. This happened but once during the last century, in 1818, and will not happen during the present century earlier than March 23, which will be in 1912. If, however, the full moon should occur on Saturday March 22, the next full moon would not occur until Monday, April 19, and the Sunday following, or April 25, would be Easter. This happened in 1883 and will happen again in 1943. S. J. P.

PASSION MUSIC

Which Will be Rendered by Trinity Choir—Time and Care Being Devoted to Preparation.

Mr. D. J. Winton, choirmaster of Trinity church, has issued an artistic brochure from the press of The Advocate Printing company of the text and program of the Passion Music, which will be presented on Passion Sunday, April 5, and Maundy Thursday, April 16, by the choir. This flourishing organization maintains the custom of annually rendering a musical setting of the Passion. This season the work is from the pen of the eminent composer, Dudley Buck, who stands at the head of American organists, entitled "The Story of the Cross," and is a cantata modelled on the distinctive lines of the setting of the Passion by Bach. The time and care devoted to preparation and the excellent personnel of the choir insure an adequate interpretation of this scholarly and exquisite composition.

A number of members of Mt. Olive Encampment, I. O. O. F., went to Zanesville Friday night to attend the conferring of the Royal Purple degree on a class of candidates. Representatives from the Coshocton, Cambridge, McConnelsville, Roseville and Crooksville lodges were in attendance.

Madison Bound Over.

Tom Madison, charged by Henry Royal with assaulting him and "frisking" his pockets, was given his hearing in police court this afternoon. Several witnesses were examined and Madison was bound over to the grand jury in the sum of \$100. This he failed to furnish and was sent to the county jail.

Regular Monthly Meeting.

The Men's League of the First M. E. church will hold its regular monthly meeting Thursday evening of this week. The Rev. Dr. McElfresh will address the men on the subject, "The Re-enforcement of Manhood." Special music and light refreshments will be features of the evening. All men of the city are cordially invited.

Returns to Farm.

Mr. Clem T. Richter, who for the past seven years has been living at 100 South Fourth street, left the city Monday to take up his residence on his farm, near Linville, in Bowling Green township. Mr. and Mrs. Richter are leaving the city because of Mrs. Richter's ill health, and their many friends and neighbors regret their departure exceedingly.

GOES ON RAMPAGE SATURDAY NIGHT AND SMOOTS AT A NEGRO

ESCAPES FROM OFFICERS

Ang Has Not Been Located—Advisory Piled Against Him—Madison's Unlucky Day.

Max McCann, "went bad" again Saturday and as a result the police are looking for him after having him under arrest at one time. McCann was drinking, and about 9 o'clock Saturday night he brought up at the bar at Fitzsimmons' cafe, First and Canal streets. During his stay there he got into an argument with William Madison, colored, and pulling a revolver from his pocket he fired three times at Madison.

Police headquarters were called and officers hurried to the saloon. McCann had disappeared by the time they arrived, but a general order was sent out to arrest him on sight and every policeman in town began the search. About 11 o'clock as Officer Chester was walking to Second and Canal streets to report from that patrol box, he ran into McCann.

The officer whipped his revolver from his pocket and placed McCann under arrest. As he was holding his man with one hand and his "shooting iron" in the other, it was impossible for him to call the patrol from the patrol box, so he started to walk his man to the patrol house. While walking up Second street a young man, James Murray, slipped from the shadow of a building and removed the revolver from McCann's pocket.

Officer Chester noticed the move, but just at that time seeing Officer Abbott he called him and turned his prisoner over to him. Then he started after Murray. Just as he got his man, McCann, wheeling suddenly, struck Officer Abbott a heavy blow under the chin and started to run.

He dashed through the court house park while the officers opened fire on him. Attracted by the shooting Capt. Bell and Officer Swank ran from different parts of the square, but McCann disappeared in a dark alley and was not located. He has not been located as yet and the police think he has left the city.

An affidavit has been filed against him by Madison who charges him with shooting with intent to kill Saturday was a very unlucky time for Madison for he claims William Miller drew a knife on him and slashed him. He filed an affidavit against him for cutting with intent to wound.

Then to add to the rest of his misfortunes he was nabbed for being drunk and when brought into police court Monday morning he was wearing a bad eye, which he claimed he received by some other prisoner poking a broom handle through the bars of his cell.

Great Crowds.
The weather helped and the spring openings helped, and other things contributed towards bringing out great crowds in the business district Saturday. The wind was high and sometimes big dust clouds swept the streets, but taken all in all the weather was a pretty fair specimen of the March dose from the weatherman.

Entertaining Friends.
Messrs. Wm. C. Frederick and Otto Vogelmeier are entertaining two of their friends, both business men of Philadelphia, Mr. Ernest Weil and Mr. John Baumburger. Mr. Weil is a prominent meat dealer and butcher and Mr. Baumburger is a dealer in butcher supplies. Mr. Weil is a cousin of the wife of Mr. William C. Vogelmeier, and is an old Ohio boy. Early Morning Fire Alarm.
An alarm of fire at 3:15 o'clock on Monday morning called the truck from the Central company and the North End company to the house on Maple avenue owned by Cliff Sturgeon, and occupied by Mr. Doolittle, a glass workers. The fire started under a stairway on the first floor, burned up through the second floor. The firemen were quickly on hand and soon succeeded in extinguishing the flames. The damage to the house and contents will amount to between \$700 and \$1000.

Fathers' Clubs Proposed.
"Mothers' Clubs have been in existence for many years," says an exchange, "and until recently the men have been satisfied with the women to train the children and to meet and discuss matters of training at different intervals. During the past few months, however, fathers in many cities have come to the conclusion that the duty of a father is something more than paying the bills of the family." Now fathers' clubs have been proposed. The suggestion of fathers organizing to exchange opin-

ions on the training of the youth has met with much favor. The work of the fathers will not interfere with the organizations of mothers, and the time may come when parents' clubs will be popular. Anyway, members of fathers' clubs will have another excuse when they stay out late nights.

Plant Good Corn.
The warning is being continuously sounded to farmers, be sure your seed corn is all right before you get ready to plant this season.

Keep Up the Roads.
Sections of the county that fight road improvement will have the free delivery service taken away. Each township in each county in every state, where rural free delivery is established, must see that the roads are kept in good condition, or under the recent ruling of the postoffice department at Washington, the service will be immediately curtailed.

Eggs Are Cheaper.
The markets of the country and particularly Chicago, have been flooded during the past few weeks with eggs, strictly fresh, and at prices that seem fabulously cheap in comparison with the exorbitant charges of a short time ago. Strictly fresh eggs are selling at from 15 to 16 cents per dozen, although some sold Saturday as low as 12 cents, the lowest price in a number of years.

Revival Continues.
The special meetings at the United Brethren church will be continued until further notice. Sunday night's meeting was one of the best of the series. A number of persons professed conversion and the requests for prayer were so numerous that the membership present voted unanimously for a continuation of the meetings. This is the seventh week for the meetings.

Does Not Reside Here.
A report from Columbus, told of the arrest Saturday, of a man named Stewart Layton, charged with the theft of a pocketbook of silver containing \$7, belonging to a stenographer in the office of Michael Hanley, in the Board of Trade building. Lay-

ton at first said he was from Newark, but later claimed to be from Baltimore, Md. The local police department knows no such man and the name is not to be found in the city directory. The fellow doubtless made a false statement.

The Republicans are determined to do nothing about reforming the tariff that protects the trusts, yet we have that high authority, former Governor Douglas, of Massachusetts, for saying that the tariff profits of the Steel Trust alone amounted to \$162,000,000 for the years 1902 and 1903.

The new arbitration treaty with France has been ratified by the Senate, and President Roosevelt has been forced to back down from his position that, the President should be given the power to submit questions to arbitration on his own initiative and without the consent of the Senate as provided in the constitution.

Packing the Republican Convention.

(New York World.)
It was inevitable that the scandalous use of the Federal machine to get Taft delegates would return to plague President Roosevelt.

In self-defense he is now compelled to ask the Senate judiciary committee for the charges against Grant Victor, whom he nominated to be United States marshal for Oklahoma. Victor is quoted as saying that former First Assistant Postmaster-General Hitchcock, now Secretary Taft's campaign manager, offered him the marshalship if he would change from Fairbanks to Taft.

In his letter to William Dudley Foulke February 7, President Roosevelt made a plausible reply to charges that he had sought to promote Secretary Taft's candidacy by the distribution of patronage in New York, Ohio and New Hampshire. But he did not meet the real question. He did not and he could not deny the pernicious activity of Federal officials in carrying out his personal purpose to control the Chicago convention. Not even Mr. Roosevelt has the audacity to deny plain facts.

At the Florida state convention at St. Augustine February 6, the Federal brigade, being in the minority, resorted to violence and named four Taft delegates at-large, three of them officeholders and one the state national committeeman. In Kentucky the postmasters of Paducah and Lexington have been neglecting their duties in order to organize the state by districts for Taft. In Missouri the

country postmasters were drummed into service. In this state federal officials threw their influence to Kelsey in order to discredit Gov. Hughes. In the Republican county committee a body of President Roosevelt's officeholders captained by Representative Parsons were foremost in fighting the Hughes movement until ordered by Secretary Taft personally to quit.

In Massachusetts the postmasters have been set at work for Taft. All through the Southern states, where the Republican organization is held together chiefly by patronage, a systematic campaign has been carried on to corral the Chicago delegations for Taft. In Texas, Representative Acheson, of Pennsylvania, produces circulars to prove that Cecil A. Lyon, the national committeeman and President Roosevelt's acknowledged patronage referee, has been assessing the postmasters 5 per cent. of their salaries for campaign purposes.

President Roosevelt's letter of November 10, 1907, to members of the cabinet, forbidding officeholders "to go to the national convention as delegates in favor of renominating me for the presidency," read well at the time. But neither that letter nor his civil service order nor any of his acts has hindered the open prostitution of the federal service to the end that he or his personal candidate shall be nominated.

The work of packing the Chicago convention through the federal machine has been pursued systematically. There has been nothing like it in American politics since Harrison's campaign for renomination in 1892. The scandal is the more flagrant because the Republican nomination is equivalent to an election of the Democrats persist in the folly of again making Mr. Bryan their candidate.

SPECIAL BILLS

Congressman W. A. Ashbrook Would Like to Make Record for Special Pension Legislation.

The Coshocton Daily Times contains the following letter, written by Congressman W. A. Ashbrook, to Richard Lanning Post, G. A. R., of Coshocton, concerning pensions for old soldiers in the 17th district:
Washington, D. C., March 14.
The Richard Lanning G. A. R. Post, No. 69, Coshocton, Ohio:
Gentlemen—I notice that your Post endorsed the application of John P. Swigert for a special act of Congress to increase his pension. I am pleased to advise you that the House yesterday passed the bill which I introduced for his relief increasing his pension to \$24 per month. I am very glad indeed to send you this report. I have been making an earnest and honest effort to do all that I can for the relief of all the soldiers and their families. It has been very gratifying to me to receive so many kind letters from old comrades and to know that my efforts are being appreciated. My ambition is, and I think it will be gratified, to get more special bills passed for the relief of soldiers than any Congressman that has ever represented the 17th district. I am especially anxious to push claims endorsed by G. A. R. Posts and should there be any other comrade in whom your Post is especially interested, I will be pleased to be so advised. Very respectfully,
William A. Ashbrook.

His professional career has been made and lived in the leading Hospitals, Sanatoriums and Institutes of the Country. The son of a Doctor and a Doctor in every generation past. He is marvellously gifted in the diagnosis of disease and there is no case which can not be made plain as day under his careful and almost miraculous powers of divination.

We believe all disease is amenable to treatment and in Dr. Thomen's hands thousands have been restored to health and strength who have been given up by other physicians. Do not give up the struggle for life and health until you have seen this learned and gifted physician and heard from his lips the words that will mean so much to you.

Dr. Thomen's treatment for Catarrh is the only cure that introduces the medicine direct into the blood current. That applies locally and by direct contact to the diseased mucous membrane of the nose and throat. The Bronchial Tubes and Air Cells of the Lungs, the Stimulating, Germ destroying and Potent Healer. Absolutely eradicating the poison in the system manifested in the blood current and at the same time healing and destroying the cause of the infection.

You are not only cured, but you stay cured. This same treatment is equally powerful and positive in Asthma, Bronchitis, Chronic Pneumonia and Consumption if used before there is destruction of Lung Tissue. Hundreds of testimonials can be shown you at the Institute.

Liver, Stomach and Bowel Disease are treated and cured by Dr. Thomen's new discovery and is so prepared that it will penetrate direct to these organs by proper application direct to the surface of the body lying over them.

The effect is immediate and lasting. YOUNG AND MIDDLE-AGED MEN who suffer from the effects of youthful indiscretions and Nervous Debility may call with confidence.

SPRING SYMPHONY.
Be happy; winter's ills have found their cure; Snows come and go, but brave hearts must endure;

A green baton is waving in the woods, Spring's symphony is summer's overture.
Have you been up to look at those new Sunlight portable electric lamps? They make the best reading lamp and diffuse the prettiest light thro' the rooms and the price all complete is only \$3.95 at The Licking Light and Power Co., at 72 East Main.

The white lingerie gowns were never more charming or serviceable than this season. The combinations of lace, embroidery and little tucks and the bretelles are so becoming to most women. Insertion is used to join the waist and skirt.

Every lady in Newark will be interested in the opening announcement of Mrs. J. R. Robertson's new millinery store. She will have an exceptionally fine line of pattern hats at most reasonable prices. Her millinery parlors are at 70 East Main, just west of the Licking Light and Power company. The formal opening will be Friday and Saturday of this week.

The President talked just as frankly to the Mothers of America as he talks to college men or Grand Army veterans. He did not mince matters. Among other things, he told them it was the duty of every wife to bear a sufficient number of children to keep up the American race. He had contempt for the woman who shirked this duty. The President did not specify how many children a woman should have, but he emphasized the evil of race suicide.

Look at the pretty Easter cards in Erman's Drug Store. They have some of the cleverest things ever put out.

Colored swisses and mulls will be popular this summer. They are made up with point d'esprit bands on the skirt and on the artistic lace sleeves. Narrow black velvet ribbon is used as a trimming.

We specialize in high class foot-wear. Red Cross and Goddard Welt shoes are what you want because they are the best. Linenah's will tell you about them. Go and see them.

"What makes you think she is uncultured?"
"She thinks Ibsen's plays are stupid."

"Well, a lot of people think so."
"Yes, but she says so."—Cleveland Leader.

Many people are very fond of ices and sherberts and The Purify has acceded to the demand and you can now get them in limited quantities there. Lemon ices and lemon sherbert today.

The majority of the summer dresses will have plaited skirts, lace ruffled sleeves. A folded grille of the plain color of the gown makes a nobby finish at the waist line.

"FRA DIAVOLO" HERE APRIL 28

Mr. H. Herve Reynolds, under whose direction Aubert's pretty opera, "The Diavolo," is to be given by local talent, has announced that the opera will be given at the Auditorium on Tuesday evening, April 28, with the following cast, excepting two characters, which have not been announced:
Fra Diavolo.....Wm. H. Reynolds
Lorenzo.....Walter W. Flora
Zerlina.....Miss Eleanor Place
Milady.....
Mistee.....Norton Beecher
Milord.....Ben B. Hoover
Giacoma.....Homer Allen
Beppo.....E. Herve Reynolds
The chorus will consist of 40 well trained, local choir voices.
The opera is to be given for the

benefit of The King's Daughters, which reason alone promises well for its patronage.

The opera has been seen here on several occasions produced by professionals, and, as is generally known, is one of the prettiest of the old Italian operas. The Italian word, Fra Diavolo, means "Brother Devil," and the title was a sobriquet of Michele Pezza, a famous Italian bandit and political insurgent, who was hanged in Naples, in 1806. He is said to have been a monk in early youth, under the name of Fra Angelo. Aubert has built his opera around the life of this famous bandit.

FIRST PRESBYTERIAN MEMBERS VOTE TO BUILD NEW CHURCH

At the First Presbyterian church Sunday a vote was taken by the members on the advisability of erecting a new church, resulting favorably. A general committee was appointed, consisting of twenty-five members. From this general supervising committee the other committees will be appointed. A meeting will be held tonight at which time sub-committees will doubtless be named.

The following members of the First Presbyterian church were appointed on the general supervising committee: R. F. McKay, Mr. and Mrs. Wm.

Kellenberger, J. H. Roe, Thomas Coulter, C. H. Spencer, Mrs. Guy Billingslea, Lawrence Ball, Mrs. Howard Pfeiffer, H. E. Leist, John Zentmeyer, W. E. Gentlemen: I have used the formula you are using in your Cold Cure, for the last 5 years, and have found it a specific in the treatment of Colds. It is the medicine I gave to Mr. and Mrs. Thos. A. Edison of Orange, N. J., when visiting in Akron, February, 1900, and were attacked with Influenza, threatening pneumonia, curing them so quickly that Mr. Edison asked for the formula. I believe it superior to any other preparation offered to the profession.

MADE POLICE COURT A VERY BUSY PLACE THIS MORNING

RESORT RAIDED SUNDAY

And Minor Happenings Make Afternoon Session Necessary—Detective Arrested.

The wagon was kept pretty busy Saturday night and Sunday night, and quite a bunch of offenders were in police court this morning. To the tune of the paper hangers working in another room Mayor Atherton diagnosed their cases and applied the remedy.

Detective Arrested.

C. F. Baker, who claims to be a detective, was arrested by Officer Callen, who claims the man was drunk and used insulting language to him. His case will come up at the afternoon session of police court.

The Drunks.

Several plain drunks were brought out and given their medicine, from \$1 and costs to 15 days in the county jail. The arresting officers were Shively, Cornell, Brown, Carroll and Burke.

Got Touched.

W. Piper, living at 55 Jefferson street, slept at a hotel Saturday night with a man named Howard Ogle, 60 Allen street, and he claims that while he slept Ogle "touched" him for \$14. He swore to a warrant against him and the police arrested him at 2:45 Monday morning. His case will be heard at this afternoon's session of police court.

An Assault Case.

Tom Madison, colored, is in the city prison on a warrant sworn to by Henry Royal, an old colored man, who claims that Madison assaulted him and picked his pocket. Jessie Johnson, a colored girl, testified that she saw Madison going through the old man's pockets. This case will be heard this afternoon.

Fighters Arrested.

A saloonist and well known bartender "got into the rags" Saturday afternoon and were arrested by Officer Carroll. The fighters were disposed of in the usual way.

Resort Raided.

A fight Saturday night and another one Sunday night caused the police to make a raid at 120 Walnut street, Sunday night at 11:05. Officers Chester, McClure, Donley and Moore made the call and took Frankie Stirling, the landlady, and three inmates into custody. Those arrested were Frankie Stirling, 21, Mable Harris, 19, Clara Jones, 22, and Lucille Farrington, 20. The landlady was given \$5 and costs and the girls each drew \$1 and costs. They paid and were released.

Disorderly in Store.

John Deitch, Pittsburgh, was drunk and disorderly in the Stevens cigar store, when Officer Burke arrested him. He came from Barnesville and claims he was headed for Utica. One dollar and costs forced him to return to his cell.

Cases Continued.

Perry Robinson will have his hearing this afternoon in police court, and at the same session Simeon Cohen and his brother, peddlers, will have their hearing.

Buy Stock in The National Drug Co.

The National Drug Company having bought the business of The Life Plant Co. will manufacture and exploit that famous remedy. The merits of this remarkable preparation are too well known to require description. Ask any physician or druggist his opinion of Life Plant. It has been regarded for the past five years as a remedy in a class by itself, possessing curative qualities no proprietary remedy on the market has dared to claim. Thousands of letters have been written by men and women telling of being cured by Life Plant of Cancer, Rheumatism, Catarrh, Eczema and other uric acid diseases. The merit of Life Plant is undisputed. It seems to possess curative power almost beyond belief.

This company will establish large laboratories here and have invited the citizens of Canton to assist in developing the enterprise by offering 50,000 shares of common stock, par value \$1, at 40c per share and 50,000 of 7 per cent preferred at \$1 per share with a bonus of one share of common stock with each share of preferred purchased.

I do not hesitate to risk the assertion backed by my knowledge of the medicine business in general and my confidence in the future of this proposition that both the common and preferred stock will go skyward before the plant is in full running condition. Anyhow the stock will never be offered as low as it is now. SO BUY NOW.

I will be glad to give information relative to any detail of the business or our plans to anyone interested.

If It's Neuralgia

and those sharp, shooting, agonizing pains drive you almost crazy, take Dr. Miles' Anti-Pain Pills, and get relief. They drive out the pain by their soothing effect upon the nerves. When taken as directed they are harmless, and leave no bad after-effects. That's the reason they are so popular with all who use them. Your druggist can tell you what others in your locality think of them.

"I do positively think that Dr. Miles' Anti-Pain Pills are the best medicine ever put upon the market. I find them so restful and soothing, and without any bad after-effects, I have suffered with neuralgia so that my system would just ache and quiver, and I cannot take opium, but I can take these tablets and they always relieve me. No one that suffers with neuralgia need fear to take them as I know they will not form a habit, for if there was any opium in them I could not take them. Just one in the morning when I feel bad, and I can do my work all day."

INTO THE STREET

PRETTY WOMAN WAS THRUST JUST AS SHE EMERGED FROM THE BATH.

Even the Towel She Was Carrying Was Taken Away From Her—Files Sent for Divorce.

Memphis, Tenn., March 23.—Alleging that her husband pushed her into the street from her home when she was as free from dress as was Eve when roaming in the Garden of Eden, Mrs. Julia Scott, a pretty young woman, the mother of two children, has instituted suit for divorce.

Matthew N. Scott, a Memphis merchant. At the time of her forced retreat from her home the young wife says she had just finished her bath. She recites in her petition that her husband seized her and, escorting her to the front door, pushed her into the street. She had held a towel, but, she alleges, this was snatched from her, leaving her in a helpless state until neighbors came to her assistance. In addition to a divorce Mrs. Scott asks for the custody of the two children.

Will Open Friday. Mrs. J. R. Robertson's millinery store, at 70 East Main street, will open its doors to the public Friday morning, March 26, with a special exhibit on this day and Saturday, of the latest models in millinery. Hats of quality at most reasonable prices will be a strong attraction at this type. Watch for the opening announcement tomorrow.

HOSPITAL TRAGEDIES FROM CONSTIPATION.

"Yes, operations are increasing, especially for appendicitis, rectal disease and constipation. At least it is touching the great ignorance of the rich and poor concerning the importance and proper care of the bowels. Children are robbed of health, wives and mothers made weak and sickly, young girls made thin and weakly, and men and women are suffering from complications, due solely to neglected constipation, while the death-dealing contagions and infections are mainly encountered where constipation has existed.

"Poisons accumulate, the blood absorbs them and the entire body becomes easily subject to colds, coughs and fevers. Never permit any member of the family to go over twenty-four hours without an evacuation. "Something is needed to relieve promptly and eventually correct the morbid, inactive bowels and nerves. The following has been used with success for years, treating old and young and curing where all else failed. Any leading druggist will mix it, or get the ingredients and mix at home to insure against substituting. "One ounce aromatic fluid Cas-cara, one ounce compound essence of Cardui, and two ounces aromatic syrup Rhubarb. Mix, and adults take from 1-2 to 2 teaspoonfuls after each meal. Children may be given in drops to a teaspoonful after eating. This may be used with ever increasing benefit until a cure is effected," says a kindly, motherly nurse matron who has had great experience.

DOPE FOR FANS

Monograms, instead of spelled out names, will identify nearly every big league team this season. The mode is humane in helping players to conceal their membership with tail ends.

The Clevelanders will this season have four "splitters" in Pitchers Berger and Leibhardt, right handers, and Graney and Littimore, southpaws.

Baseball fans are hoping the weather man is not now making the mistake of serving weather ready intended for four weeks later.

Lajoie says: "People seem to forget that there are seven other clubs in the league that have a few good catchers, batters and so forth."

If Catcher Ostlie fails to make good with the Boston Americans he may be sold to Montreal of the Eastern league. Manager Casey has a liking for the former Youngstown backstop since the Brooklyn-Youngstown game last season.

Manager McGuire of the Boston Americans says Harry Ostlie will be released as soon as the practice season is over. He needs seasoning.

Only a few days and the tireless box score will begin chasing such trivial matters as the presidential campaign from the papers.

These days preceding the opening of the baseball season pass as slowly as do the last days of the school term for the spring-ferverish boy.

"More gran' stan' plays are pulled off outside th' ball park than in it," says Josh Wise.

It is surprising to see a class B league like the Central pattern after the Ohio state. Dr. Carson's organization has decided to pool the mileage, a plan which Booby Quinn first suggested.—Ohio Citizen.

THE REACH BALL GUIDE. Reach's baseball guide, official for the American league, is out for the season of 1908. The book which is published by the A. J. Reach company and edited by Francis C. Richter, editor of Sporting Life, is complete in every detail, and as usual is first in the field. The guide is a beauty and is well gotten up, clear text and clear illustrations being used on a good quality of paper. The exciting American League race last year is shown by many photographs, while minor league clubs all over the United States are shown and the records of their players given.

POISONS SWEETHEART COMMITS SUICIDE

PARENTS OBJECTED TO DAUGHTER'S PROPOSED MARRIAGE TO WOJENSKI.

Lover Put Strychnine in Girl's Ice Cream and Took Dose Himself. Confessed Before Death.

Milwaukee, March 23.—Because her parents objected to her proposed marriage to Leo Wojenski, Miss Nettie Plaschke, 17, was poisoned by her sweetheart early today and died a few hours later. The man then ended his own life. After attending a theatre performance the couple went to an ice cream parlor. Wojenski put strychnine in the girl's ice cream. When she became ill he called physicians and then took a dose of poison himself. He confessed before he died.

WORST PART

OF THE BALL SEASON IS NEARLY OVER NOW, FOR TRYOUTS ARE SIGNED.

HOLD OUTS ARE FEW

And Teams Are Rapidly Getting Into Smooth Running Order for the Summer.

Base ball matters are gradually settling down into the smooth summer running, for most of the managers in the Ohio State league have signed their try-outs, and while until reporting time other men may be picked up, yet the most likely amateurs and professionals have tacked their John Hancock's to the contracts. In some of the cities in the league some of the "old heads" are holding out, yet none of the managers are worrying and are signing others in their places, so if they fail to come to time the game will go on just the same.

The failure of a few players to sign never did break up a league and the Ohio State circuit is in no danger of going to the wall just because half a dozen men are holding out. Manager Berryhill is one of the lucky ones though, for there isn't a hold out to be reckoned with and most of the old men are to be back. The answer is simple though, for the men like Newark, they like Berryhill and they liked the people. Then, too, most of them are married and in some instances their wives were residents of the city, so naturally they wanted to return to Newark.

But whatever their reasons may be for signing for 1908, they must have been good ones, for they will all be back in line again and a nice bunch of recruits will also report to fill the few gaps left by the men who graduated into faster company.

In speaking of the new pitchers signed by Berryhill, the Sycamore Leader says: "Fred Koehl has received orders from the manager of the Newark team to report April 1. Fred will not require as much preliminary training as some of the others for he is working out every day and expects to be ready for hard work when the season opens.

Letters have been received from some of the other men and they all report they are in fine fettle and will be anxious to get into a real game. None of the new men are "sandlotters," they have all had experience in the game, and while some have worked in faster company than others, yet they all have worked out enough to show their qualities. And if they possess any at all Berryhill can be counted on to bring to light all their ability in the ball tossing line.

Just a week from Wednesday will see them rolling into town over the steam or electric roads, and then the work will commence. To have everything in running order Manager Bob will land in Newark the latter part of this week, from then on things will hum along in fine shape.

PORTLAND, MAINE, CHILD

Ill, Weak, and Emaciated, Restored to Health by Vinol.

Mr. J. W. Flagg of Portland, Me., writes: "Our little daughter, six years of age, after a severe attack of the measles, which developed into pneumonia, was left pitifully thin, weak and emaciated. She had no appetite, and her stomach was so weak it could not retain food. She lay in this condition for weeks, and nothing the doctor prescribed did a bit of good, and we were beginning to think she would never recover.

"At this time we commenced to give her Vinol, and the effect was marvelous. The doctor was amazed at her progress, and when we told him we were giving her Vinol, he replied, 'It is a fine remedy, keep it up.' We did so, and she recovered her health and strength months before the doctor said she would."

The reason Vinol accomplishes such results, when everything else fails, is because it is a cod liver preparation, made by a scientific, extractive and concentrating process from fresh cods' livers, combining with the potentiate of iron all the medicinal, healing, body-building elements of cod liver oil, but no oil. When the powers of life are low Vinol restores the whole digestive system to a normal condition and makes it possible for the daily food to nourish the body as nature intended.

For this reason there is nothing equal to Vinol to create strength for the aged, the weak and run-down and convalescent. Try it on your guarantee. Frank D. Hall, Druggist, Newark, Ohio.

Swisher Brothers, cigar manufacturers of this city, have commenced a suit against the Alabama Great Southern Railroad company. They say there is due them from the defendant \$214, with interest by reason of a certain contract, whereby, in consideration of certain freight charges, defendant agreed to transport over its lines 20,000 cigars and deliver them to J. M. Kates at Birmingham, Ala. Plaintiff says the goods were not delivered to the consignee, but that they were lost, whereby defendant became indebted to plaintiff in the sum of \$214. Plaintiff says that the defendant is a foreign corporation, but that the B. & O. Railroad company has a freight car belonging to the defendant in its possession. The car was attached by Sheriff Redman and it was turned over to C. R. Potter, freight agent for the B. & O. Railroad company at this point.

Mandamus Proceedings Against City.

The case of the State of Ohio on relation of Hugh DeFord, Frank Devoll and J. W. Imbody, against the City of Newark and the members of the Board of Public Service of the City of Newark, is the style of a new case that has just been commenced in the Common Pleas court. Plaintiff says that the City Council had made all the necessary arrangements for the improvement of Clinton street between Locust and St. Clair streets, and Locust street between Third and Stanberry streets, by paving it. The plaintiffs say that they submitted a bid on the work according to the plans and specifications and that their bid was the lowest and best bid, but that the Board of Public Service refused to award them the contract and now announce that they have awarded the contract to Frank Kinney. They claim that Kinney is not the lowest bidder and that he is not entitled to the contract. They ask that a writ of mandamus issue against the defendants, and that they be commanded to award the contract to them; that if the contract is not awarded to them they ask that they be compensated for their loss and for all relief. Smythe & Smythe, attorneys for the plaintiff.

CONVENTION

The Y. M. H. L. Will Meet From
April 8 to 12 in United Brethren
Church.

The Y. M. H. L. will hold a convention in the United Brethren church on East Main street, April 8 to 12, inclusive. All are welcome. Every one that is interested in this kind of work should make arrangements to be present.

The Y. M. H. L. is not a church, and it does not favor any particular church to the exclusion of others. Its membership is made up of those who are members in good standing in many different denominations. Its interests are identical with the best interests of every church. Those who are converted and sanctified in its meetings are earnestly recommended to seek fellowship and communion in the churches of their choice.

Some of its members are preachers and evangelists, and others are preparing for evangelistic or missionary work; but by far the greater number are workmen, richer in faith and love than in silver and gold, who esteem it a privilege to preach and live holiness in the factories, offices, mines, etc., and work honestly to earn the money which they gladly give to carry on the soul-saving enterprise.

AN EASTER GOWN.

Said Farmer Brown, "I'm going to town to buy my wife an Easter Gown, and while I'm there I'll also buy some Spartan Stain for her to try. They say it is the best thing made, makes old things new—in any shade." Spartan Stain has become so well known that it is being used in thousands of homes at housecleaning time. You can buy a small can or get it in any quantity you wish. Manufactured by The Marietta Paint & Color Co., Marietta, Ohio. Sold by Newark Paint Co., 31 West Church street.

TENTH ANNIVERSARY OF BIG FLOOD

Monday, March 23, was the tenth anniversary of the big flood that washed away the iron bridge spanning the North Fork of the Licking river on East Main street. The flood is well remembered by hundreds of our citizens because of the disaster and ruin wrought by the flood, and because of the fact that one of Newark's oldest and most respected citizens, Mr. Horace Ross, father of Mr. Fred Ross, was washed away with the bridge and drowned.

The Kind You Have Always Bought

Bears the Signature of J. C. Fitch

On account of the extraordinary rush of business in our Columbus office, our Newark office will be open only on Friday for the next few weeks. We have lately installed one of our oxygen machines in our Newark office. By means of this apparatus, all dental operations are rendered entirely painless. Although this is a very expensive process, we will, for the next three months, use it without extra charge, in order to introduce it.
